**Date of Trust Board Meeting:** 31<sup>st</sup> May 2017

**Confidential or Public Agenda:** Public Agenda

**Agenda item:** 7.8. SQE report – April 2016 – March 2017 (Ms Patterson)

**1.0 Introduction**

The SQE report provides detail of the Trust end of year position against a number of significant Safety, Quality and Experience KPIs; it supports the information provided in the Annual Quality Report in November.

**2.0 Background information**

This report demonstrates the Trust approach to measuring and monitoring key performance indicators (KPIs) related to safety, quality and experience. Together with the Annual Quality Report it provides assurance to Trust Board at regular intervals throughout the year on the commitment to Quality Improvement relating to a number of metrics across a range of service areas.

**3.0 Brief summary of key points contained in the paper/s**

The following areas detailed in the SQE report are a combination of priority indicators identified by Regional Nursing KPI Group, the PHA Quality Improvement Plan and internal processes which identify local metrics:

- Standardised Mortality Rates
- Cardiac Arrests and NEWS compliance
- HCAI
- Nutrition Management
- Falls
- Pressure Ulcers
- VTE compliance
- Sepsis
- Omitted Medication
- NICE Guidance/Learning alerts
- Patient and Client Experience Standards
- 10,000 Voices
- Leading in Safety, Quality & Experience (SQE) Programme

The priority areas for focus remain under continuous monitoring and are reported through the SQE Leadership Subcommittee. The current TOR and agenda are to be reviewed to ensure Community/Social Care indicators are considered and reported through a similar format in the future.

**4.0 Recommendation/s for the Trust Board (please state if the paper/s is for information/noting or for approval by Board members)**
