Podiatry Services

STEP TOWARDS FOOT HEALTH

What is a podiatrist?

A podiatrist is a specialist in assessing, diagnosing and treating conditions affecting the feet.

We aim to provide a high quality podiatry service to people seeking foot health advice and treatment.

Who can apply for podiatry services?

All are welcome to apply, however there are defined access criteria to the podiatry service in the South Eastern Health and Social Care Trust. These are based on podiatric need with the following medical conditions:

- Diabetes Type 1
- Diabetes Type 2
- Renal disease stage 3 and above
- Rheumatology
- Immunocompromised/steroids
- Lower limb amputee
- Neurological conditions
- Foot ulceration
- Peripheral vascular disease
- Foot infection
- Paediatric and adult biomechanics
- Nail surgery.

How can I apply?

There are 2 ways to apply:

1. Complete an application form obtained from your local Podiatry Clinic (or by contacting the numbers overleaf)
2. Ask your GP to refer you to podiatry.

Podiatry services are also available in the Ulster Hospital. Referrals can only be accepted from either a consultant or other health professional.

Please remember to fully complete the application form giving as much information as possible.

This helps us to prioritise applications.

Thank you.
